

INSTANT ARCHIVES FOR A FULLY SOUND DIAGNOSES

What are you doing with those reams and reams of reports, documents, and information that you need to archive every month? Are you able to access it quickly and easily? Is it backed up, safe and secure? Are you printing it twice, including a set for off-site storage?

If your dealership is like most, over 50% of your staff's efforts are spent on filing, sorting, storing and retrieving documents. Now you can virtually eliminate the cost, bulk, inconvenience, and confusion of paper.

DIGITAL TECHNOLOGY INC., (DTI) automates the storage, retrieval and distribution of these documents. It electronically captures images or pages as they are created or scanned into the system. DTI handles any conventional document type, including forms, accounting reports, invoices, repair orders, tax forms, charts, graphs, photographs, and even handwritten notes. It even includes back-up features to help protect your valuable archives from catastrophic loss. The documents are stored in a secure central repository where they are immediately accessible to all authorized employees.

Filing and retrieving documents electronically can allow dealerships to dramatically reduce operating costs, increase efficiency, and enhance customer service. With immediate access to your documents, such as your deal jackets and all items contained within, you have all the information at your fingertips to empower users with the information they need to do their jobs and make a sound business decision.

BENEFITS:

Reduce operating costs and improve profitability:

- Offering a non-proprietary system allows interfaces with almost any other system you may have
- No more having to deal with filing all your paper records or shipping your computer-generated magnetic tapes for processing
- Offering a web-based system which negates the need for multiple broadband connections between dealerships
- Offering unlimited users – No more having to pay for multiple users to access your own documents!
- Significantly reducing your floor space, file cabinets, storage costs and equipment needs, as well as save costs on paper

Increase efficiency:

- Eliminating the need to spend hours at month-end printing, binding, and filing voluminous month-end reports
- Gaining greater control of your information
- Streamline business processes

Enhancing customer service:

- Facilitating collaboration between departments

Recognizing that return on investment is an important factor in any decision, we can lower your total cost of ownership while offering a solution that will provide the most dependable, mission-critical technology for your automotive information and service needs.

By choosing DTI, you will find an organization and product that are committed to providing high-quality service and product offerings, and most importantly, an organization that puts servicing the customer with integrity first.
